NADHA Employees

The number of employees are 16 (11 male & 5 female). NADHA hires employees with master and ph.D. degrees with ten years of experience in humanitarian and development context. They have higher competencies, skills and experts particularly in communication with donors and partnerships

A hand is shown holding a small, green tree with soil. The background is a light blue sky with white clouds. Overlaid on the image are several abstract shapes and icons: a purple 'X', a purple dot, an orange zigzag line, and a white circle. A thought bubble with a paperclip icon contains the word 'Context'.

Success story

NADHA Works to secure IDPs lives Amal Saad Al-Uqbi is a 9 months IDP baby lived in AL-Suwayda camp in the south of Ma'rib governorate, like the rest of the thousands of IDPs. She was born in a tent where she lived with her family under the heat of the sun, strong winds, and the storms that mixed with sand and dust. One day In the midst of this tragic situation, the distressful incident occurred that rumbled throughout Ma'rib Governorate. Where (Amal Saad Al-Uqbi) was the one the victims died on Friday at 5 pm in July16 ,2021 at AL-Swuaydaa camp because of the Strong winds that hit the camps accompanied by dust and soil. Those strong winds affected the tents of IDPS. Amal's tent poles fell on and hit her head and she gone away alone. This painful incident, and other similar events has become a concern for mothers of children, especially those under the age of seven, as they are exposed to injuries and damage from the descent of those tents and their crushing over their inhabitants due to strong winds, or from the damage of the elderly, especially those who have sensitive breathing or (asthma sufferers), due to dust and dirt accompanying it. The humanitarian situation in the camps dramatically critical. Al-nada Association is exerting efforts and looking for substantial for IDPs.It made intensive coordination with the local authorities and donors to have participation and contribution.Alnada was the first to initiate offering CASH aids for such families who are suffering under tents. AL-nada with not stop but ongoing efforts to offer sustainable intervention for such vulnerable people. AL-Nada intervention has most .positive effects such as schools construction and WASH services
